QUIETUS

The **extra**-ordinary tale of **HAMLETTTTTTTT**

Being a free adaptation of the Shakespeare - written and created by

Nicholas Jonne Wilson

Does any of this really happen? Does Hamlet die? And what is reality to a mind that is already broken?

Is it a dream now in the present or a scream from Hamlet's soul for things that happened centuries ago?

Here Hamlet comes face to face with not only his own daemon but that of Ophelia and that of his mother as well.

This is the exciting, shocking and at time wickedly humorous **extra-ordinary tale of Hamlet.**

'quietus /kwɒl'i:tes: death or something that causes death, regarded as a release from life.'

Running time: approximately 55 minutes without interval
